

Lion of Knowledge

Dies Irae

Transforming into Mobed
For pleasure of mind
Body and soul, for all gods
You'll see the lightShapeless fire of knowledge which
Whirl and clamor again and againStanding on the shoulders
Horseback painted in gold
The child wielding the bow
Shod in flames, so let's rise our handsSo let's rise our hands and free our minds
So let's plunge into nihil, into Nuit
Where children of sun and moon
Shine upon our earthly consciousnessEvil against good
Aryman versus Ahura
Soul united with Daina
All parts swimming across macrocosmDecomposition of our being
Into different dimensionsTransforming into Mobed
For pleasure of mind
Body and soul, for all gods
You'll see the lightShapeless fire of knowledge which
Whirl and clamor again, and again
And again, and againStanding on the shoulders
Horseback painted in gold
The child wielding the bow
Shod in flames, so let's rise our handsSo let's rise our hands and free our minds
So let's plunge into nihil, into Nuit
Where children of sun and moon
Shine upon our earthly consciousness
