

# From Now On

## Pavement

From now on, I make haste  
To carry my skin into the arm  
Must of [unverified], never less, never less  
Caught might grow in to a mind that eats like a big taste lie I've laid low from now on, this is a joke  
When he sees the skin rough on me  
Play low, from now on, this is a joke  
Can I see the skin rot on a dog stray's hide
