Shabutie

Remember your innocence set fire to December
I'm giving away you but now it supports for you to serve,
Oh yes to serve
Its all over, we've all wondered and now I know dear sir.Bless you
Remember dear dark soldier a message from the battle jar
I'm giving away you but now it supports for you to serve,
Oh yes to serve
Its all over, we've all wondered.I said master, I've traveled this message that I bring,
and you're lost cause and they tell themselves
I beg you more, so you get all...And now it supports for you to serve,
Come on and serveI said master, I've traveled this message that I bring,
and you're lost cause and they tell themselves
I beg you more...(Oh my God)Light up the fire now burn, burn, burn
Put out the fire, fire
It starts now put out the fireI said master, I've traveled this message that I bring,
and you're lost cause and they tell themselves (You're the bacteria)I say save us, I said save us
Yea I've got two words for you: fuck you
I said save us, I say save all us
I said oh my God, oh my God, oh my God
Why don't you call your God.
