

# Your Love Is Working In My Life

Clay Crosse

I've got a secret, been hiding oh so long  
Trying hard to keep it and never tell anyone, but  
It's getting hard a little harder every day  
I feel it moving inside me, moving in mysterious ways  
And I'm not alone no matter what I do  
No matter where I go I know, I'm gonna be with You  
Your love is working in my life, I can feel it every day  
You pick me up and take me higher  
But I'm not afraid 'cause I know Your love is working in my life  
Always so independent, thought I could stand  
alone  
I never needed anything from anyone  
But since You found me and I found You, You reached out to me  
And showed me what the power of love can do  
Your love is working in my life, I can feel it every day  
You pick me up and take me higher  
But I'm not afraid 'cause I know Your love is working in my life  
I don't know just where this road is leading  
But as long as You hold my hand, I'll keep believing  
Your love is working in my life, I can feel it every day  
You pick me up and take me higher  
But I'm not afraid 'cause I know Your love is working in my life  
No I am not afraid 'cause I know Your love is working in my life
