

# Between the Lines

## Peter Bjorn and John

You've got a troubled soul  
I've got a troubled mind  
You wanna highlight the faults  
Why can't you leave them behind  
Tried to fix the cracks  
It's still leaking in  
This will never end  
If we don't begin  
We burn it up from both sides  
Our fuzz is fuel to the fire  
Reading between the lines  
Getting tired of  
Reading between the lines  
Colour outside the lines  
Bring the tirades  
Open up, let it out  
Speak your mind  
Or forever bite your tongue  
(Our love's hidden in between the lines)  
When your heart's not there  
It's hard to sing along  
(Our love's hidden in between the lines)  
(Our love's hidden in between the lines) You like the sun  
But you just can't face it  
I like the good things in life  
But I don't know how to taste it  
This vicious circle should  
Have been a circle of trust  
Trying to avoid, what now comes down to a must  
I'll never finish this book  
You always turn out the light  
Reading between the lines  
Getting tired of  
Reading between the lines  
Colour outside the lines  
Bring the tirades  
Open up, let it out  
Speak your mind  
Or forever bite your tongue  
(Our love's hidden in between the lines)  
When your heart's not there

It's hard to sing along  
(Our love's hidden in between the lines)  
Speak your mind  
Or forever bite your tongue  
(Our love's hidden in between the lines)  
When your heart's not there  
It's hard to sing along  
(Our love's hidden in between the lines)  
(Our love's hidden in between the lines)  
(Our love's hidden in between the lines)Our love's hidden in between the lines  
Our love's hidden in between the lines
