Endless

Reactive Black

Do you think Iâ€™m evil
You know I already am
And now Iâ€™m on my way down
Into darkness I will fall

Did I step out of line?
My darkness overwhelmed me
Old ethic poison in my veins
Now Iâ€™m going down

Once we learned to love, so
Once we learned to cry
Once we learned to hate each other
And once weâ€™ll learn to die

Time to prove my own belief
Sometimes hard to take
My darkness in my mind so real
Eternity, here I am

Once we learned to love, so
Once we learned to cry
Once we learned to hate each other and
Once weâ€™ll learn to die
