Advisory - the following lyrics contain explicit language:

[Verse 1]
Look inside my eyes
I know you're watching
Look at my demise
You know you got me
Feed me all your lies
And I just soak it up, soak it up, soak it up, baby
Thought that you were mine
But you ain't down
Ain't downYou have my love
You have my heart
You've got everything that tore us apartThis is why I never learn to trust correctly
We both know you could never just forget me
I'd love you if you ever really let me
Would you let me?[Hook]
Don't fuck with me
Don't fuck with me
Don't fuck with me
Don't fuck with me
Don't fuck with me[Sample][Verse 2]
What a bunch of lies
I see you, oh no no no
But what if I, what if I
Mislead you, too?
Would that justify
How you don't open up, open up, open up (baby)
Cause what the fuck was mine
Caused me to lose my fucking mindYou mistreat me, every lie was soaking
Do you see me? am I by the ocean?
Do you read me? is your pineal open?
Do you read me? just leave me[Hook x2][Verse 3]
You're standing there

With an empty look of envy
You aint come prepared
You don't have to see what's in me
Girl, I'm one to care
And I'm ridin' where the simps be
I swear they tryna get me
Woah
Fuck you think this is?
Look what you did to me
You fucking piece of shit
I'm everything that you pretend to be
I thought that we were meant to be
Now just[Hook x2]
[Sample]
