

# Cuckoo

## I Am Kloot

You stand like a rock, on top of the mountain  
Run like a river, fall like a fountain  
The grass still is growing, the wind still is blowing, about you  
Reels like a strain, drinks like a scholar  
Drown in this town, you can feel for one dollar  
Since when were you bitten, where were you smitten  
Cuckoo X4 Looks like a date, but seems like your brother  
Seems like your father, your sister, your mother  
Threw out in chains, wildhood and childhood, cuckoo  
Drinks like a rogue, looks like no other  
Looks like a dream, one you'll discover  
Seems like its bitten, whence were you smitten, cuckoo  
Cuckoo X4 Looks like a saint, drinks like a scholar  
Dreams in this town you can buy for one dollar  
Whence were you smitten, where were you bitten, cuckoo  
Wrench like a chain(?), looks like no other  
Your father, your mother, your sister, your brother  
Have all since long gone, all since long gone  
Cuckoo X4 Stand like a rock  
You stand like a rock
