

# Best Night Of Our Lives

## Everyday Sunday

I know you said it all would be just fine  
And i know that changes come with time  
So sometimes i donâ€™t want the times to change  
And i know that tomorrow you'll be gone  
So i know tomorrow we'll move on  
But maybe part of us will stay the same

Don't fall asleep  
We don't want to miss a moment  
Cause tonight might be the best night of our lives  
Don't close your eyes  
We could stay right here forever  
Cause tonight might be the best night of our lives

I know sometimes i fight to keep things right  
Fighting ends up such a waste of time  
The time will spend a time we had right now  
Feeling like we donâ€™t know whatâ€™s to come  
We'll be thinking where we first begun  
And trying to relive it all somehow

Don't fall asleep  
We don't want to miss a moment  
Cause tonight might be the best night of our lives  
Don't close your eyes  
We could stay right here forever  
Cause tonight might be the best night of our lives

We think weâ€™re heading somewhere  
Donâ€™t say goodbye tonight  
But weâ€™re not going nowhere  
So donâ€™t say goodbye  
Goodbye  
Goodbye

Don't fall asleep  
We don't want to miss a moment  
Cause tonight might be the best night of our lives  
Don't close your eyes  
We could stay right here forever

Cause tonight might be the best night of our lives  
Oh, tonight might be the best night  
Tonight might be the best night  
Tonight might be the best night of our lives
