

Lullaby

Onerepublic

Days feel hard earned
Night grows longer
Summer says its goodbyes
And darkness covers
We find shelter
Our own place to hide

Oh

As the light goes out
Thoughts turn to angels

Over us

Oh

As the night comes in
Dreams start their drifting

And you hear

A lullaby

Ooooooh

A lullaby

You and I

Trees touch windows
Say their hellos
We hear this house as it settles in
Worry slips away

It don't know your name

It don't know where to find us

Oh

As the light goes out
Thoughts turn to angels

All around us

Oh

As the night comes in
Dreams start their drifting

And we hear

A lullaby

A lullaby

You and I

You and I

Ooooooooooh
