

Rescue Me

Buckcherry

You can't erase this deep inside of me
I know I'm not a sight to see
But baby, I'm alive
I cherish the love and
I cherish the life that's inside of me
And I know I'm not a sight to see
But baby, I'm alive
Won't you come and rescue me?
Separate myself from me
Maybe I'm too blind to see
Save my life, rescue me
I lie awake, it takes its toll on me
And now my broken heart, it bleeds
But baby, I'm alive
I cherish the love and
I cherish the life that's inside of me
And now my broken heart, it bleeds
But baby, I'm alive
Won't you come and rescue me?
Separate myself from me
Maybe I'm too blind to see
Save my life
Won't you come and rescue me?
I'm torn away from what I need
Help me now, I'm way too deep
Save my life
It's not over now
And I just want to say
You'll never be left out
I love you more today
It's not over now
No more time to waste
Kiss me on the mouth
And take my breath away
I cherish the love and
I cherish the life that's inside of me
And I know I'm not a sight to see
But baby, I'm alive
Won't you come and rescue me?

Separate myself from me
Maybe I'm too blind to see
Save my life
Won't you come and rescue me?
I'm far away from what I need
Help me now, I'm way too deep
Save my life, rescue me
