Pinocchio

Squeeze

Swallow me, say, swallow me
Take me to your nest of China dolls
Call me up your closest friend
Join me in my neighborhood patrolHappy me, say, happy me
Chinese whispers bounce from ear to ear
The night is young I feel so old
See the stars above the night's so clearI used to come home late and lie, lie, lie
She used to see through that but still I tried
I couldn't cover up the tracks I'd made
That's how it used to be but not todayRace around, I race around
Focused on the here and now with you
Every smile's a valentine
What harm can a little loving doFall about, then fall about
Drunk on love I can't stand on my feet
Before I try please, take my hand
I've so many words left I should eatTickle me, please, tickle me
Laughter climbs the walls above our bed
This night we have is built on love
Help me, so I do not lose the threadSwallow me, say, swallow me
Happy me, say, happy me
Race around, I race around
Fall about, then fall about
Tickle me, say, tickle me
Love me do, sing, love me do
