

# Drift On

## Butterfly Boucher

If the waters cool  
I might just swim  
If the sun shines right I might be here all day  
I'd drift away  
In a sunken state  
I'm busy lappin' it up  
I might be here all day  
With the tides and their little secrets  
Whispering to me to sleep  
Would you take away my weakness?

"drift on

Drift on"

If the waters cool  
I might just swim  
If the sun shines right I might be here all day  
I'd drift away  
In a sunken state  
I'm busy lappin' it up  
I might be here all day  
With the ripples and their stories  
Cooking up a storm.

Will you carry all my weakness?

"Drift on

Drift on" If the waters cool  
I might just swiiiiiiiiimmm  
I'd drift away in a sunken state  
I'm busy lappin' it up  
I might be here all day  
With the under current lurking  
Watching sideways from afar  
Could you take away  
My weakness  
I'm not that strong?  
You see I feel so heavy  
Without you  
And you say  
"Drift on  
Drift on

Drift on...  
...drift on  
Mmmm  
Stay strong  
Drift on"  
If the waters cool I might just swiiiiimmm
