I Am Useful

Let's Wrestle

building houses in tuscany
getting all the LEDs from my own tv
i fixed the window and i fixed the door
but i broke myself I'm lying on the floor

(chorus)
but I am useful
yes I am useful
i hope she needs me like i need her someday
i will not let my big emotions get a hold of me today
I'm gonna put an english face on this

Ive got a degree in bionic physics
I've got a three bedroom house in Chiswick
I got all your stuff in parcels by the door
but I don't have a wife any more

but I am useful
yes I am useful
so why did she leave if I'm so useful?
i hope she needs me like i need her someday
i will not let my big emotions get a hold of me today
I'm gonna put an english face on this

but I am useful
yes I am useful
so why did she leave if I'm so useful?
i hope she needs me like i need her someday
i will not let my big emotions get a hold of me today
I'm gonna put an english face on this
