

# Whole Lot of Love

Duffy

[Duffy]

I feel frustrated all the time  
Over and over  
Bittersweet you and me  
Ain't no ways to understand  
Now I believe we'll make it to end  
When you just couldn't feel  
I negotiate  
Between love and hate  
And it wise up just the same  
Try to understand it  
Feel you could comprehend  
And negotiate the bail  
Took a lot of love to hate you  
The way I do  
Took a lot of love  
Whole lot of love  
Whole lot of love to hate you  
The way I do  
Whole lot of love  
Whole lot of love  
How to see regret in your eyes  
Stone cold somber  
Can't deny what you do to me  
Hundred times I've asked of you to think of me  
But what more could you do  
You just couldn't hide the truth  
I compromised  
To get by  
To survive  
You won't see me right  
I give it taste  
Happy overstate  
Sure I'm moving on  
I'll be standing strong  
Took a lot of love to hate you  
The way I do  
Took a lot of love  
Whole lot of love  
Whole lot of love to hate you  
The way I do  
Whole lot of love

Whole lot of love Whole lot of love  
Whole lot of love Whole lot of love  
Whole lot of love Hear me  
As I say  
Took a whole lot of love  
To feel this way  
Understand that I tried  
But he pushed all the love aside It took a lot of love to hate you  
The way I do  
Took a lot of love  
Whole lot of love  
Whole lot of love to hate you  
The way I do  
Whole lot of love  
Whole lot of love I negotiate  
Between love and hate  
I negotiate  
With a whole lot of love  
I negotiate  
Between love and hate  
And it wise up just the same Took a lot of love to hate you  
The way I do  
Took a lot of love  
Whole lot of love  
Whole lot of love to hate you  
The way I do  
Whole lot of love  
Whole lot of love
