

# Restless Soul

## The Proclaimers

Drift away let tomorrow have today  
While your dreams take tomorrow  
They don't fail, even when you fail  
Restless soul

It drove you on 25 years ago  
It'll drive you tomorrow  
It can't stop it'll drive you till you drop  
Restless soul

You're always looking for  
A place your mind can rest  
It's not there, it's not there

You feel like there's a curse  
Putting you to the test  
But you've been blessed

You're always looking for  
A place your mind can rest  
It's not there, it's not there

You feel like there's a curse  
Putting you to the test  
But you've been blessed

So drift away let tomorrow have today  
While your dreams take tomorrow  
They don't fail even when you fail  
Restless soul
