

# Drug Train

## Social Distortion

It'll take you as high as the Heavens  
It'll take you to the depths of Hell  
It'll make you friends, it'll take your friends  
Who will never live to tell Drug train, drug train  
Drug train, drug train Well the train's first stop is pleasure  
The second stop is fun  
But in a jail cell baby or a hospital bed  
You'll need hope 'cuz you ain't got none Drug train, drug train  
Drug train, drug train The train passes through the graveyard  
May the loved ones rest in peace  
For the last stop baby is a violent crash  
And hard times, they never cease Drug train, drug train  
Drug train, drug train
