

# Spinning Wheel Blues

## Status Quo

Well, I spent my money on the spinning wheel last night

Well, I spent my money on the spinning wheel last night

Well, a red twenty-seven didn't do me right Well, I went in smiling but I came out feeling down

Well, I went in smiling but I came out feeling down

Well, now that I'm a poor man, I got no friends around I went high on that lonesome, high on that lonesome hill

I went high on that lonesome, high on that lonesome hill

I need a whole lotta money so I can pay my bills Well, the spinning wheel blues have made me pack up my bags  
and go

Well, the spinning wheel blues have made me pack up my bags and go

I had to leave my home town, they don't want me no more
