Love's What You Left Me With

Finger Eleven

Lots of wonderful things, you'll become
You always used to say
All the time that ties down in your life
Feels different today
I feel bad 'cause there is no other place
In your arms that I'd rather be
I know love's what you left me with
But I can't believe you left me
All the wonderful things to become
What possibilities
And your struggle of finding yourself
Was never lost on me
Every ending has to be too much too soon
For just about everybody
I know love's what you left me with
But I can't believe you left me
Lots of wonderful things to remember
It's such a stupid shame
Swept away with my own share of pain
I won't forget again
I can only tell you for sure
That I'm not sure of anything
Except love's what you left me with
But I can't believe you left me
Every ending has to be too much too soon
For just about everybody
I know love's what you left me with
But I can't believe you left me
I know love's what you left me with
But I can't believe you left me
