Decisions made from desperation
No way to go
Internal instincts craving isolation
For me to growMy fears come alive
In this place where I once died
Demons dreaming
Knowing I, I just needed to realignFell in a river of illusion
And apathy
Drowning in a self-induced confusion
I'd rather be, yeahMy fears come alive
In this place where I once died
Demons dreaming
Knowing I, I just needed to realignMy fears come alive
In this place where I once died
Demons dreaming
Knowing I, I just needed to realign, yeahYeah, yeah, yeah, yeahMy fears come alive
In this place where I once died
Demons dreaming
Knowing I, I just needed to realignMy fears come alive
In this place where I once died
Demons dreaming
Knowing I, I just needed to realign, yeah
