Decisions made from desperation
No way to go
Internal instincts craving isolation
For me to grow My fears come alive
In this place where I once died
Demons dreaming
Knowing I, I just needed to realign Fell in a river of illusion
And apathy
Drowning in a self-induced confusion
I'd rather be, yeah My fears come alive
In this place where I once died
Demons dreaming
Knowing I, I just needed to realign My fears come alive
In this place where I once died
Demons dreaming
Knowing I, I just needed to realign, yeah Yeah, yeah, yeah My fears come alive
In this place where I once died
Demons dreaming
Knowing I, I just needed to realign My fears come alive
In this place where I once died
Demons dreaming
Knowing I, I just needed to realign, yeah
