# Too High For Love

## Faith Evans

Do you know what my name is?
Or are you so caught up in you that weâ€™re just strangers?
Even though I know all about you â€˜cause youâ€™re famous
At least inside your head thatâ€™s going on
Tell me what cloud youâ€™re on

Come down, (Come down) up there
You really canâ€™t feel a thing now baby
Iâ€™m here,(I'm here) right here
What is it gonna take now baby?
No air,(No air) up there
Floating in outer space when Iâ€™m the one
But youâ€™re too high for love

Itâ€™s gonna get lonely
When the world revolves around you and you only
I can tell youâ€™re feeling something
But wonâ€™t show me
At least inside my head thatâ€™s going on
Tell me what cloud youâ€™re on

Come down, (Come down) up there
You really canâ€™t feel a thing now baby (Really can't feel a thing)
Iâ€™m here,(I'm here) right here (I'm right here)
What is it gonna take now baby?
No air,(No air) up there (Ain't no air up there)
Floating in outer space when Iâ€™m the one (You know I'm the one)
But youâ€™re too high for love (That you're too high for love)

Are you so high youâ€™re afraid to fall?
Trust me, Iâ€™ve got you
Donâ€™t you worry at all
Just let it go
Get over your pride
And open your eyes yeah

Come down, (Come down) up there (Up there)
You really canâ€™t feel a thing now baby
Iâ€™m here,(I'm here)(I'm back baby) right here (right here)
What is it gonna take now baby? (What is it gonna take?)

No air,(No air) up there
Floating in outer space when Iâ€™m the one
But youâ€™re too high for love

Come down, (Come down) up there (Up there)
You really canâ€™t feel a thing now baby
Iâ€™m here,(I'm here) right here (right here)
What is it gonna take now baby? (What is it gonna take babe)
No air,(No air) up there
Floating in outer space when Iâ€™m the one
But youâ€™re too high for love (You're too high)

Baby come down, wonâ€™t you come down? (â€˜Cause I love you)
Baby come down, wonâ€™t you come down? (And I need you baby, I do)
Baby come down, wonâ€™t you come down? (I do need you)
Baby come down, wonâ€™t you come down?
Baby come down, wonâ€™t you come down? (Baby come down)
