

# Under My Skin

## Get Scared

What a waste the things you say  
It's all for nothing  
If you don't even know yourself  
Quick to blame for your mistakes  
It's all or nothing  
If you don't know who you've become  
It's too easy to fall apart when solid grounds like quicksand  
I can't stand the sight of faith  
Believe in your own way  
Tell me something everybody wants to hear  
Fake it right in front of me I bet you can't  
Stop looking for your way in  
And prove yourself an enemy I bet you can't  
Make a name save your grace  
For slight attention if you don't know consequences for your fame  
Your bones aren't meant to break  
Just give it time  
Your souls not mine to save  
It's too easy to fall apart when solid grounds like quicksand  
I can't stand the sight of faith  
Believe in your own way  
Tell me something everybody wants to hear  
Fake it right in front of me I bet you can't  
Stop looking for your way in  
And prove yourself an enemy I bet you can't  
Time and time again I've been taken for a fool  
Guided by the blind now I've got nothing to lose  
Spare me  
You can't live like this  
Tell me something everybody wants to hear  
Fake it right in front of me I bet you can't  
Stop looking for your way in  
And prove yourself an enemy I bet you can't  
Tell me something everybody wants to hear  
Fake it right in front of me I bet you can't  
Stop looking for your way in  
And prove yourself an enemy I bet  
I bet you can't
