The Business

X Ambassadors

So long, so long
Going back to nine to five
So long, so long
So much for keeping the dream alive
I've waited so long
The silence it gets so loud
Wish I knew what I know now
So I say
Come on, give up, give up, give up, gotta let it go
Come on get out, get out, get out, I'm giving up
Come on show up, show up, show up when you need me I'm ready, ready now
I'm gonna give up the business
I'm gonna give up the business
I'm gonna give up the business
I'm gonna give up the business
I'm gonna give up the business
So long, so long
Going back where I belong
So long, So long
C'est La Vie, say life goes on and
Waited so long
The silence it got so loud, I wish I knew what I know now
So I say
Come on, give up, give up, give up, gotta let it go
Come on get out, get out, get out, I'm giving up
Come on show up, show up, show up when you need me I'm ready, ready now
I'm gonna give up the business
I'm gonna give up the business
I'm gonna give up the business
I'm gonna give up the business
I'm gonna give up the business
So the jokes on me
Yeah the jokes on me
So I say
Come on, give up, give up, give up, gotta let it go
Come on get out, get out, get out, I'm giving up

Come on show up, show up, show up when you need me I'm ready, ready now
I'm gonna give up the business
I'm gonna give up the business
I'm gonna give up the business
I'm gonna give up the business
I'm gonna give up the business
