Sovereign Circle

Circa Survive

Take me away, I have no use for the dead
Why you change everything
Falling in the leaves, I canâ€™t feel sorry for you
Cause itâ€™s true, youâ€™ll never get

Everything we are, starting to change before
As you turn away, posture
Embrace our love to watch you go

Wondering the desert set me alive
You may out of this for you live a lie

Sovereign circle around the ending way
We want the ferris wheel and canâ€™t forgive ourselves
We took the introduce, I cannotâ€¦ to know

Take what you want, I have no use for a mirror
Cause itâ€™s clear you never see
Impressions of light, deep in the night
Are you sure? Cause you swore you never would

As you turn away, posture
Embrace our love to watch you go

Sovereign circle around the ending way
We want the ferris wheel and canâ€™t forgive ourselves
We took the introduce, I cannotâ€¦ to know
Let it shake, let it shake, oh, oh
Let it shake, let it shake, oh, oh

Sovereign circle around the ending way
We want the ferris wheel and canâ€™t forgive ourselves
We took the introduce, I cannotâ€¦ to know
