This Is The Sound

The Last Goodnight

I let you in just a little too close
You shut the door, so nobody would know
I know I heard a shot on the fourteenth floor
The music was raw, you really put on a showThis is where we are
This is where we've been
This is how I fall
In love with you againI had to say goodbye before I said hello
I saw you crash and you took off your clothesAnd this is the sound of a broken heart beating
Almost died when I found your heart cheating
I won't survive very much longer
You got to keep this broken heart strongerThis is where we are
This is where we've been
This is how I fall
In love with you againWhere did I go wrong?
I can't be your friend
After where we've been
I can't see your face againYou leave your troubles at the door
And I feel we don't know what we're fighting forFeels like I'm a prisoner, baby
So hard when you have to fake it
It hurts so much to feel love
When you know you've got to break itAnd this is the sound of a broken heart beating
Almost died when I found your heart cheating
I won't survive very much longer
You got to keep this broken heart strongerThis is where we are
This is where we've been
This is how I fall
In love with you againAnd this is the sound of a broken heart beating
(where did I go wrong)
Almost died when I found your heart cheating
(I can't be your friend)I won't survive very much longer
(after where we've been)
And this is the sound of a broken heart stronger
(I can't see your face again)I fall for you again
I fall for you again
I fall for you again, woahAnd this is the sound of a broken heart beating
(I fall for you again)
Almost died when I found your heart cheating
(I fall for you again)I won't survive very much longer
(I fall for you again)

You got to keep this broken heart stronger
