See The Day

Samantha Barks

When you look at me
Tell me what you see
Do you see no love at all?Or do you see in me
What you always see
In every girl that you fall forI will show you
How love is meant to be
Just watch and learn
And listen to meWill you ever see the day
Heartache leads astray
Good love will always come from meWill you ever learn to love
Without a little doubt
Good love will always come from meWhen you look away
Is it mean to say
That she haunts you night and dayAnd does it hurt your heart
When I say let's start
To heal the part that's been tornDon't you see that I
I'm really worth a try
And I say to you
I know just what to doWill you ever see the day
Heartache leads astray
Good love will always come from meWill you ever learn to love
Without a little doubt
Good love will always come from meDon't you see that I
I'm really worth a try
And I say to you
I know just what to doWill you ever see the day
Heartache leads astray
Good love will always come from meWill you ever learn to love
Without a little doubt
Good love will always come from meWill you ever see the day
Heartache leads astray
Good love will always come from meWill you ever learn to love
Without a little doubt
