

# Magic Night

## Village People

When I'm with my friends then it's magic in the air, air  
Good vibrations always surround us  
Play some good music, the moment has left  
Happiness and joy's everywhere So have a good a time, everyone have some fun  
People leave your problems behind you  
Come and sing along, join in on my song  
Sing about this magical night Magic night, magic's in the music  
It's a magic night, we all need the music  
We can have a good time  
And enjoy all the magical vibes of this great Magic night, good friends all around you  
It's a magic night, magic sure will find you  
So let's all try tonight to feel love  
Coming from inside each other When I'm with my friends, friends with whom I can share  
All my ups and downs and betweens with  
When I'm with my boys, the moments are clear  
So much love is found in the air, air, air Magic's when I come, together with my friends  
People from the world all around us  
Sharing good things we all love to share  
So much love is found in the air, air, air Magic night, magic's in the music  
It's a magic night, we all need the music  
We can have a good time  
And enjoy all the magical vibes of this great magic night Good friends all around you  
It's a magic night, magic sure will find you  
So let's all try tonight and feel love  
Coming from inside each other Ahh, ahh, ahh, ahh, ahh, so much magic  
Ahh, ahh, ahh, ahh, ahh, so much magic  
Ahh, ahh, ahh, ahh, ahh, so much magic Magic night, magic's in the music  
It's a magic night, we all need the music  
We can have a good time  
And enjoy all the magical vibes of this great  
Magic night, good friends all around you
