I began way to regression  
I began it then I was born  
All my thoughts are complicated  
There is no God, which I can serve

Disorder!

Our world is out of order  
Our feelings is not true  
Sins and demons are possesses us  
All that demons are our mind

Our thoughts are full of evil  
Our bodies are deceased  
Our souls are sold to Devil  
Our life lost in the Mist

Planet Earth will colored grey  
No more happiness “no more lies  
Nuclear winter made its way  
More and more destructed lifes
