Sleepwalking

Novice

The air is freezing
The cold weather's coming
My favorite season
Soon the clouds will cover the sky
But for now when I look up,
I see a world, so beautiful
So different from where I am
Where's my song of inspiration?It makes me feel,
Like running away
I'll take you with me, I'll take you with me
It makes me feel,
Like my life could be so much better
But that's what dreams were meant forI can see you breathing
The light fixture's up on the rooftop shining
The next breath you take
Breath in deeply
Now hold it there, and close your eyes
Just dream
Can you see the people living your dream?It makes me feel,
Like running away
I'll take you with me, I'll take you with me
It makes me feel,
Like my life could be so much better
But that's what dreams were meant forSome people say
That dreams are what keep you going
What happens to those
Whose dreams that seem so far away
Show me the wayIt makes me feel,
Like running away
I'll take you with me, I'll take you with me
It makes me feel,
Like my life could be so much better
But that's what dreams were meant for
