

# Pull the Trigger (On Your Love)

**Dirty Dave Osti**

Want you to be by my side  
and I'm believing what I feel inside  
am I crazy i just don't know  
you got me rollin and I'm ready to go  
Not waitin for you to run  
got you locked and loaded in the sight of my gun  
moving behind you were gonna rise above  
but you got to pull the trigger on your love.came to your window just the other day  
you pushed my ladder right the other way  
you want some changes baby I don't mind  
a close encounter of the other kind  
but I'm not chasin the moon and the sun  
got you locked and loaded in the sight of my gunmoving behind you were gonna rise above  
but you got to pull the trigger on your love.you got to pull the trigger on your love.
