Horseshoe Lake

Todd Snider

It won't work this morning, I can't punch in
There's too many questions under my skin
My back is aching, I'm so confused
I can't help feeling like I'm being usedI didn't like they told me, I settled down
Now I'm going crazy, working downtown
What do I do here, why do I stay?
Who are all these people, I check in with every dayI need room to think this over
I need a ride out to Horseshoe Lake
I wanna feel like it makes a difference
What difference one man makesThey say that one man makes the money
One man makes the time
I need time to think this over
I've got to make up my own mindI don't need a psychic, I don't need a shrink
I need time away from all of this, I need a drink
How did I get here, where will I go?
Why am I so haunted by anything that I don't know?I need room to think this over
I need a ride out to Horseshoe Lake
I wanna feel like it makes a difference
What difference one man makesThey say that one man makes the money
One man makes the time
I need time to think this over
I've got to make up my own mindI need room to think this over
I need a ride out to Horseshoe Lake
I wanna feel like it makes a difference
What difference one man makesThey say that one man makes the money
One man makes the time
I need time to think this over
I've got to make up my own mind
