# The Skins

## Scissor Sisters

you are subject to inspections
those are not your lips
have you been kissed by a computer
are you able to move your hips?It's the skins have you seen them
holding us in
the skins can you see them
we cling to our skinis it true are you changing
if so i won't come in
are you going to be so different
you're so wrong without skinIt's the skins have you seen them
holding us in
the skins can you see them
we cling to our skinRandy Burgens where are you now?
the angels renaisanse is dead
leagens of legends have shown us how
when you're raging its so hard to keep your head
when your raging its so hard to keep your head
im not complaining its so hard to keep my head
when you're raging its so hard to keep your headIt's the skins have you seen them
holding us in.
the skins can you see them
we cling to our skin.
