Lunatic

Static-x

Motion range arpeggiate
The decimator bend rage
Oscillate, assimilate
The agitator depth cage
Modulate the head space
Panellel the universe
Transpose this phase
Compress all
Trip myself up, I stand alone
Take myself out, I cut the throat
Trip myself up, shuffle it slow
Take myself out, time to reload
Shift the pitch up
Phase the noise out
Scan the record
Throw the bitch out

Scan the record
Throw the bitch out
