

# Turn Back Time

## DefRage

Give me time to reason, give me time to think it through  
Passing through the season where I cheated you  
    I will always have a cross to wear  
    But the bolt reminds me I was there  
So give me strength to face this test of mineIf only I could turn back time  
    If only I had said what I still hide  
    If only I could turn back time  
I would stay for the night, for the nightClaim your right to science, claim your right to see the truth  
    Though my pangs of conscience will drill a hole in you  
        I've seen it coming like a thief in the night  
        I've seen it coming from the flash of your light  
So give me strength to face this test of mineIf only I could turn back time  
    If only I had said what I still hide  
    If only I could turn back time  
        I would stayThe bolt reminds me I was there  
        The bolt reminds me I was thereIf only I could turn back time  
    If only I had said what I still hide  
    If only I could turn back time  
        I would stay for the nightIf only I could turn back time  
    If only I had said what I still hide  
    If only I could turn back time  
        I would stay for the nightIf only I could  
            (If only I could)  
            If only I could  
            (If only I could)  
        If only I could turn back time  
        I would stay for the nightIf only I could  
            (If only I could, if only I could)  
                If only I could  
                (If only I could, if only I could)  
                If only I could turn back time  
                I would stay for the night  
                If only I could  
                (If only I could, if only I could)  
                    If only I could  
                    (If only I could, if only I could)  
                        If only I could turn back time
