Do You Believe Me Now

Jimmy Wayne

Do you remember
The day I turned to you and said
I didn't like the way he was looking at you, yeah
How it made you laugh
You just couldn't get what I was saying
It was my imaginationSo do you believe me now
I guess I really wasn't that crazy
And I knew what I was talking bout
Every time the sun goes down
He's the one that's holding you baby
Yeah me I'm missin' you way across town
So do you believe me nowI'm kicking myself
For being the one foolish enough
Giving him the chance to step in my shoes
He was bidin' his time
When he saw our love was having a moment of weakness
He was there between usSo do you believe me now
I guess I really wasn't that crazy
And I knew what I was talking 'bout
Every time the sun goes down
He's the one that's holding you baby
Yeah me I'm missin' you way across town
So do you believe me nowOh yeah I bet now you see the light
Oh yeah what's the use in being right
We're not the lonely one tonightSo do you believe me now
I guess I really wasn't that crazy
And I knew what I was talking bout
Every time the sun goes down
He's the one that's holding you baby
Yeah me I'm missin' you way across town
So do you believe me nowYeah
So do you believe me now
Yeah
Every time the sun goes down
He's the one that's holding you baby
Yeah me I'm missin' you way across town
So do you believe me now
