

# About You

## The Black Cadillacs

I always knew the way about you  
I always knew the way about you  
    Always on my mind  
    Always take my time  
    Take my time and I can  
        Find my way  
I never took the time to see through  
I always knew the way about you  
    Always on my mind  
    Always take my time  
    Take my time and I can  
        Find my way  
    Always on my mind  
    Always take my time  
    Take my time and I can  
        Find my way  
    Always on my mind  
    Always take my time  
    Take my time and I can  
        Find my way  
    Always on my mind  
    Always take my time  
    Take my time and I can  
        Find my way  
    Always on my mind  
    Always take my time  
    Take my time and I can  
        Find my way  
    Always on my mind  
    Always take my time  
    Take my time and I can  
        Find my way
