Exxxes

Joe Budden

She be callin' my name
Screamin' real loud, I would think she in pain
Nigga's tried to tell me her head was insane
Everythin' she'd do took a toll on my brain
It seemed a little strange but she be callin' my name
Screamin' real loud, I would think she in pain
Nigga's tried to tell me her head was insane
Everythin' she'd do took a toll on my brain
It seemed a little strange but she be callin' my name
She don't got a name so for now, let's call her Ashley
She had her gym clothes on, seen her when she passed me
Met her up at Exxon, her body was the nicest
Cursin' up a storm, she complainin' 'bout the prices
She just left Toronto, for Jerz bought a condo
Know everythin' about her but we ain't never had a convo
Pops wasn't around much, her mother raised her
Got so much in common that I don't like to face her
Her parents is dope heads, she dropped out of school too
Got the same tat's as me and I found that unusual
Mad I smoke cigs, said they bad for my own health
Said she'll never love me 'cause I don't love my own self
Gave me the ass the first night and I gladly tossed it
The best part was I ain't have to ask for it
Her period don't ever come in when I dick her down
She always runnin' but
She be callin' my name
Screamin' real loud, I would think she in pain
Nigga's tried to tell me her head was insane
Everythin' she'd do took a toll on my brain
It seemed a little strange but she be callin' my name
Screamin' real loud, I would think she in pain
Nigga's tried to tell me her head was insane
Everythin' she'd do took a toll on my brain
It seemed a little strange but she be callin' my
She like to scream so the neighbors might hear her
For some reason liked it in front of the mirror
Let me make it clearer, she be makin' strange requests
And I ain't talkin' 'bout just pullin' her hair
She be sayin' choke me like I lost all respect

And every time I do, mark show up on my neck
She say punch her, smack her, like I'm her attacker
I say you a fool, she say just do what I asked ya
I be goin' slower till she tell me do it faster
Every time I'm out nigga's just harass her
I don't understand it, she's so unattractive
Shorty lookin' terrible, plus she come with baggage
I tapped it, though she below my average it deceives me
She be talkin' marriage, sayin' she'll never leave me
I say I'ma bounce but I say I don't believe me
She fucked me every time she sees me
She be callin' my name
Screamin' real loud, I would think she in pain
Nigga's tried to tell me her head was insane
Everythin' she'd do took a toll on my brain
It seemed a little strange but she be callin' my name

Screamin' real loud, I would think she in pain
Nigga's tried to tell me her head was insane
Everythin' she'd do took a toll on my brain
It seemed a little strange but she be callin' my name
Strangle her, throw her off the balcony
Dangle her, mangle her, how long of character [Incomprehensible]
How come when we argue, we gotta get physical
We crucial conflict, she end up in critical
Habitual, happens daily like it's her ritual
But show your face bitch, stop bein' invisible
Is it just my mental, is she just a symbol
There for me to look at everything that I resemble?
Sometimes during sex, I blurt another name
Do that mean I look at me and be ashamed of cheatin' on me?
With a hottie, with a body who so happen to embody
Everythin' that I so happen to not be
I be tryna leave her but then I get lenient
Since I'm in the room alone, she becomes convenient
Then we lie together, cry together
I swear I hope we die together
She be callin' my name
Screamin' real loud, I would think she in pain
Nigga's tried to tell me her head was insane
Everythin' she'd do took a toll on my brain
It seemed a little strange but she be callin' my name
Screamin' real loud, I would think she in pain
Nigga's tried to tell me her head was insane
Everythin' she'd do took a toll on my brain

It seemed a little strange, but she be callin' my
Look, I finally grew the balls to tell shorty we should separate
Save your breath, nothin' you can do to make me hesitate
There's no room for me and you to grow
Don't love me, leave me alone, do both
Did she apologize for anything that she did?
Said without me, she can't think of no reason to live
Said she'll miss gettin' piped down
Then she picks up a shank
I had to tell the crazy bitch to put the knife down
Cryin', eyeshadow on her face, filthy
Feel me, if you kill you, it's gonna kill me
Really, she said you neglect me
I said we the same so, whatever you do is gonna affect me
You know I can't let it be, no
So if we gotta stay together just to co-exist, so it is
She said I love you and hugged me 'til pants [Incomprehensible]
And proceeded to fuck me
She be callin' my name
Screamin' real loud, I would think she in pain
Nigga's tried to tell me her head was insane
Everythin' she'd do took a toll on my brain
It seemed a little strange but she be callin' my name
Screamin' real loud, I would think she in pain
Nigga's tried to tell me her head was insane
Everythin' she'd do took a toll on my brain
It seemed a little strange but she be callin' my name
