

Just a Habit

Built to Spill

He's more farce than father
He's more of a dog than dogs are
It depends, we're just dots and commas
I'd still say, you got one on us There's no reason for it
Don't despise it and don't adore it
It's just a habit
It's just a habit I formed This one's a supersonic
This one's got too much on it
This one's a freak
This one's for free There's no reason for it
Don't despise and don't adore it
It's just a habit
It's just a habit
