

Aftermath

King Diamond

The LOA house and the old voodoo burial ground
Are still standing in all their glory
The Lafayette's left the hospital and Louisiana
And went to, I don't care Malone survived
He's a scared old man now
And by the way, my name is Salem You cannot say, that everybody's happy
But you can say, that everybody is now safe from each other
At least I thought so, until a few days ago
When I heard of some mother by the name of Sarah Lafayette Who's newborn baby was speaking in the
strangest tongue
Backwards, a miracle?
Some expert had uttered the word
Voodoo
