

Helpless

Big Head Todd And The Monsters

Since the first time, I can't take my poor eyes off you
Though it seems I've lost my mind, you make my heart new
Any fool would run
But I can't help myself around you
You turn my head and I leave the rest behind me
Who I am, what I had none can remind me
My defenses done and I can't help myself around you
I can't help myself around you
My intentions cannot keep this face from changin'
And surrender all this cold heart has been savin'
My intentions cannot keep this face from changin'
And surrender all this cold heart has been savin'
I can't help myself around you
I can't help myself around you
