Love Me or Not

Dub Fx

You could love me or not
But either way I've got to
Wake up to face another day tomorrow morning
You could love me or not
But either way I've got the sunrise looking in my eyes
And I know I could love you or not
But either way you've got to
Wake up to face another day tomorrow morning
Tomorrow morning oh ohI'm not getting used to my new solitude
I've still got a photo in my wallet of you
I've got to stop myself
From picking up the phone and just calling you
I've got to keep my emotions together and forever
So don't be afraid
I can't erase memories with the actions I seize
And I can not erase your smile and your eyes
With your hair in the breeze in me
And the only way for me to move on
Is to write it in a song that life goes on
And I'm kicked off this earth
With no one to hold it's getting cold and my chest hurtsYou could love me or not
But either way I've got to
Wake up to face another day tomorrow morning
You could love me or not
But either way I've got the sunrise looking in my eyes
And I know I could love you or not
But either way you've got to
Wake up to face another day tomorrow morning
Tomorrow morning
What will the world bring?
What will the world bring?
What will it bring to me?You've got to be strong
Your story goes on and on
Even though our page is gone
'Cause there's a world out there
And even though it ain't fair
You've got to not be scared 'cause I swear
I'll always be true to you
Forgetting your smiles and eyes I could never do

Your love is skin deep with me
You could never be replaced
Even though you know my heart is free
Don't be afraid
I can't erase memories with the actions I seize
And I can not erase your smile and your eyes
With your hair in the breeze in me
And the only way for me to move on
Is to write it in a song that life goes on
And I'm kicked off this earth
With no one to hold it's getting cold and my chest hurtsYou could love me or not
But either way I've got to
Wake up to face another day tomorrow morning
You could love me or not
But either way I've got the sunrise looking in my eyes
And I know I could love you or not
But either way you've got to
Wake up to face another day tomorrow morning
Tomorrow morning
What will the world bring?
(uhoo) (yeah)
What will the world bring?
(uhoo)You could love me or not
But either way I've got to
Wake up to face another day tomorrow morning
You could love me or not
But either way I've got the sunrise looking in my eyes
And I know I could love you or not
But either way you've got to
Wake up to face another day tomorrow morning
Tomorrow morning
What will the world bring?
