

She Want It

The Gaylads

She want it, she want it, she want it
Now you give her as she want it
She want it, she want it, she want it
Now you give her as she want it Love shines brighter than gold, you know
Just as long as your heart can go She want it, she want it, she want it
Now you give her as she want it
She want it, she want it, she want it
Now you give her as she want it 'Cause when she can't get it, she feels so mad
But when she get it, she feels so glad Take it easy, babe Love shines brighter than gold, you know
Just as long as your heart can go She want it, she want it, she want it
Now you give her as she want it
She want it, she want it, she want it
Now you give her as she want it When she can't get it, she feels so mad
But when she get it, she feels so glad She want it, she want it, she want it
Now you give her as she want it
She want it, she want it, she want it
Don't stop her if she want it She get it, she get it, she get it
She never stop 'til she get it
She get it, she get it, she get it
She never stop 'til she get it Feel that? Right there
Rub it in, babe
