Our Endless War

August Ruins

Let's goAmerica our wasteland
Where death is entertainment
The place where moving forward means you turn the other direction
A place where reality existed
And we still continue to bleedRed, White, Blue for ourselves and who?
And they still hold the truth so we say
Fuck you!
My country tis of greed, sweet land of idiocracyThis is our endless war!While we still have liberty
Lets take back our justice for all
We can march at sundown upon capitol hill
We're calling you out
Come face us now and see your true war
Let's take it back
We the people have spoken againstOur endless war!There is nothing left to prove
We've spoke our minds risked our lives
Make your move
Tread lightly, choose your words wisely
Or we will refuse to bleedRed, White, Blue for ourselves and who?
And they still hold the truth so we say
Fuck you!
My country tis of greed, sweet land of idiocracyWhile we still have libertyShut it down!50 states united as one
But we still cant find a solution
Where have we gone
It seems that our motto to live by
When your chin deep in shit
duck, breathe and die!
[2x]Let's take back our justice for all!We can march at sundown upon capitol hill
We're calling you out
Come face us now and see your true war
[2x]I've said before and I'll say it again
This world is ours
Let's take it back and give them their warLet's take it back!We the people
Have spoken againstOur endless war!My country tis of greed, sweet land of idiocracy
