

Helicopter

Dead Pop Club

[Originally by M. Ward] i am somewhere in the city climbin' up a fire escape
see i am somewhere in the city climbin' up a fire escape
you know i got to save my baby from the mess that this world has made
 oh i arrive through a window
 leave through a hole in the wall
 see i arrive through a window
 leave through a hole in the wall
you know i got to save my baby as i carry her cradle and all
 helicopter, helicopter
 let your long rope down
you see i swing beneath the sunset

 done all that i can do in your town
 violence has taken wind out of my sails
 violence has taken wind out of my sails
you know i got to save my baby from the mess that this world has made
 helicopter, helicopter
 let your long rope down
you see i swing beneath the sunset
 done all that i can do in your town
i am somewhere in the city climbin' up a fire escape
see i am somewhere in the city climbin' up a fire escape
you know i got to save my baby from the mess that this world has made
