

Coward

Biffy Clyro

Make up your mind
Ignore your senses
Leave us behind
We're willing you sadness
Remember a time, you would listen to me. Embrace your demise
Improves your senses
Eyes open wide
We're saving our madness
The end of time
Until the end of time Cowards become the profiteer
The Cowards become the profiteer
Get on your knees and worship it boy?
Cowards become the profiteer
The Cowards become the profiteer
Get on your knees and start the tribute. Covered in white
The words for masses
Egger desires
You know your limits
Wake up your dead
Wake up your dead Make up your mind
Ignore your senses
Leave us behind
We're willing you sadness
Remember a time, do you remember a time? Some people are scared to take chances
Got to leave them behind [x4] Whoooooooo Whoooooooo
