Black Balloons

Local Natives

I can see
The words as they come out your mouth
Black Balloons
Fall into a poison cloud
Hold me down
And bring me back up again
Until i can
I cant tell the difference
Circling
Vultures always over head
Force your hand
And every day is life or death

Hold me down
And bring me back up again
Until i can
I cant tell the difference
I look on
Red lights flashing for awhile
Play your part
Swear youre who you say you are
Hold me down
And bring me back up again
Until i can
I cant tell the difference
