Shots Is Fired

Evan Dando

There are a million things youll never get to do
You had your way before and whered it get you to?
Waking up on the floor and sleeping in your shoes
Already too much change in the reflecting poolWhatever part of you
Thats been calling the shots is fired
Whatever part of you
Thats been calling the shots is firedThere are a million things youll never get to do
You had your way before and whered it get you to?
Waking up on the floor, youre sleeping in your shoes
Already too much change in the reflecting poolWhatever part of you
Thats been calling the shots is fired
Whatever part of you
Thats been calling the shots is fired
