

# The Guardians of Mankind

## Gamma Ray

For no one to see for no one to hear  
They fight for our souls without any fear  
When injustice done they open their gates  
To maintain balance between good and bad  
And as the winds of freedom blow they vanish into haze  
The mighty shadow turns away and wisdom conquers hateThe guardians of mankind are losin' their faith  
'Cause malice and falseness spread over human race  
If guardians of mankind won't shelter our souls  
The rulers of darkness will soon gain controlDon't try to deceive them don't try to play false  
'Cause losing their favor will be end of all  
And as the winds of freedom blow they vanish into haze  
The mighty shadow turns away and wisdom conquers hateThe guardians of mankind are losin' their faith  
'Cause malice and falseness spread over human race  
If guardians of mankind won't shelter our souls  
The rulers of darkness will soon gain controlAnd as the winds of freedom blow they vanish into haze  
The mighty shadow turns away and wisdom conquers hateThe guardians of mankind are losin' their faith  
'Cause malice and falseness spread over the human raceGuardians of mankind are losin' their faith  
'Cause malice and falseness spread over human race  
If guardians of mankind won't shelter our souls  
The rulers of darkness will soon gain controlGain control
