

The Guardians of Mankind

Gamma Ray

For no one to see for no one to hear
They fight for our souls without any fear
When injustice done they open their gates
To maintain balance between good and bad
And as the winds of freedom blow they vanish into haze
The mighty shadow turns away and wisdom conquers hate
The guardians of mankind are losin' their faith
'Cause malice and falseness spread over human race
If guardians of mankind won't shelter our souls
The rulers of darkness will soon gain control
Don't try to deceive them don't try to play false
'Cause losing their favor will be end of all
And as the winds of freedom blow they vanish into haze
The mighty shadow turns away and wisdom conquers hate
The guardians of mankind are losin' their faith
'Cause malice and falseness spread over human race
If guardians of mankind won't shelter our souls
The rulers of darkness will soon gain control
And as the winds of freedom blow they vanish into haze
The mighty shadow turns away and wisdom conquers hate
The guardians of mankind are losin' their faith
'Cause malice and falseness spread over the human race
Guardians of mankind are losin' their faith
'Cause malice and falseness spread over human race
If guardians of mankind won't shelter our souls
The rulers of darkness will soon gain control
Gain control
